Our custom order process

Our Custom order slots are offered frequently via our Instagram page. Custom slots are limited numbers but we aim to open them as frequently as possible.

The week after a custom slot has been claimed is when all correspondence and decisions about item/s in the order are made via Instagram Direct Message. In this Catalog you will find descriptions and photos of all the products we currently offer. Once you have chosen which products you would like, the design process begins, which is always so exciting. You can find all our fabric, backing fabric and embroidery options in this catalog. If you have a specific design in mind, drop us an Instagram DM. During the planning week all decisions must be made for items in your order.

Once everything has been finalised we will send you an invoice via Instagram DM and then we will create a listing on our website with the full cost of the order. The shipping is then also paid through our website and all shipping details are stored on our online platform. Once a custom order has been agreed, the customer must be able to pay via our website within 48 hours (unless agreed otherwise).

HOW TO ORDER

Key Things to Note

- If you are not able to pay within the 48 hour period you will be taken off our waitlist and refused custom order slots in the future (unless agreed at the start of the planning week).
- Unfortunately we do not offer rush orders or the ability to decide/ change your order wait time. This is to put less stress on the business (and ultimately improve wait times in the long run).
- Once all custom orders from that particular opening are paid for we will then add orders to our customs schedule and online order chart which can be viewed at any time.
- The order chart is a rough time frame for orders and in accordance to all of our "delays for customs" policies there may be delays on your order and the expected delivery date may be moved back.
- Please read ALL our policies before claiming a custom order slot
